Miso V Lift : Mi-Cog

Is a special innovative new generation of COG thread. The cog is made by non-heating molding pressed process, allowing additional cog to be attached to the string through compression.

The barbs provides strong anchoring & tensile strength, fixing and supporting skin tissue in multi directions.

Cutting COG Technology

COG ASTERISK DIMENSION

$120^{\circ} \times 3D = 360^{\circ}$

COG DIRECTION

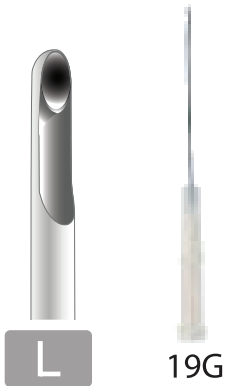

Cog Thread Type	Needle Type	Needle (G)	Needle (mm)	Thread (mm)	Packing
3D	L	19G	100	150	4pcs/pouch
